

GLOBALREACH FOR RAIL

STATIONS

TRAINS

PASSENGERS

STAFF

IoT

High-quality internet access is essential across our railways. Passengers want a highly reliable connection for remote working, travel updates, access to apps, social media, email and content, supporting productivity and relieving frustrating delays or cancellations. While quality connectivity for staff and IoT devices strengthens operations, communications and passenger understanding.

“The Best Public Wi-Fi I've Ever Used”

GlobalReach Technology already provides powerful Wi-Fi for millions of passengers every day, at some of the largest, busiest places on the network. We aim to make the most of every connection, for a better rail experience, passenger satisfaction and loyalty.

LUMEN

telent

QUALITY PASSENGER EXPERIENCE
